February 21, 2003

An act to add Section 1596.602 to the Health and Safety Code, relating to child care.

LEGISLATIVE COUNSEL'S DIGEST

AB 1558, as amended, Daucher. Child care: health studios: trustline registry.

Existing law authorizes a child care provider, as defined, and any person providing in-home educational or counseling services to a minor who possesses any one of 4 identification cards to initiate a background examination process by submitting one set of fingerprints and a completed trustline application to the Department of Justice. Existing law requires the State Department of Social Services to establish a trustline registry and, upon submission of the trustline application and fingerprints, to enter into the trustline registry the provider's name and other specified information.

This bill would prohibit any person *18 years of age or older* employed by, or volunteering at, a health studio, *as defined*, from providing care for, or directly supervising, a child on behalf of, or at, the facility unless that person is registered as a trustline child care provider. This bill would also require the facility to display a notice pertaining to these requirements that contains specified information, and would require that specified provisions regarding the above requirements be included in health studio membership contracts. ~~This~~

This bill would require that any person under 18 years of age who cares for children as an employee or volunteer within the facility's child day care center be supervised by a person who is 18 years of age or older and who is a registered trust line child care provider. The bill would not apply to nonprofit organizations, as specified.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.
